Sohat Mineral Water 33 CL **5,000 LBP**

Sohat Mineral Water 1 L **7,000 LBP**

Sohat is a Lebanese brand of mineral water that is the leading brand of bottled water in Lebanon with a 35% market share. The water is light and crisp with low mineral content and almost no sodium at all. Sohat water is bottled from the Falougha source at an altitude of 1,710 meters in Mount Lebanon. The area of the source, which is 100,000 m² is a protected environment to maintain the purity of the water. The water of the source is purified by passing through various geological layers, starting with the melted snow that seeps through the permeable soil, then reaches a deep and impermeable layer where it is stored before spurting up to the surface through natural fissures.
